Professional Summary

Full-Stack Java Developer with **3.5+ years** of experience delivering enterprise-grade applications using **Java, Spring Boot, React, and PostgreSQL**. Proven track record in microservices architecture, RESTful API design, Redis caching, and AWS cloud services. Achieved **99.9% uptime** across production systems, **40% faster API response times**, and **87% reduction in deployment time** through CI/CD automation. AWS Certified Developer with strong expertise in both backend and modern React-based frontend development.

Technical Skills

Languages: Java 8/11/17, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Redux, React Hooks, React Router, Responsive Design, REST API Integration

Backend: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, RESTful APIs, GraphQL, Microservices

Databases: PostgreSQL, Redis, Hibernate ORM, JDBC, Query Optimization, Connection Pooling

DevOps & Cloud: AWS (EC2, S3, RDS, Lambda), Docker, Jenkins, GitHub Actions, CI/CD Pipelines

Testing: JUnit 5, Mockito, TDD, Integration Testing, Postman, Spring Boot Test

Tools & Practices: Git, Maven, Gradle, IntelliJ IDEA, Jira, SonarQube, Swagger, Agile/Scrum

Professional Experience

Java Full Stack Developer | Cognizant Technology Solutions | Noida, India Sept 2022 – Present

- Developed and delivered **2+ production full-stack applications** using Spring Boot, React.js, PostgreSQL, and TypeScript, serving **100,000+ active users** with **99.9% uptime** and zero critical incidents
- Engineered **25+ RESTful APIs** with Spring Boot/Spring MVC including authentication, validation, and error handling; achieved **40% improvement in response times** via PostgreSQL query optimization and Redis caching
- Built scalable **microservices architecture** with Spring Boot and Redis, processing **2M+ events monthly** using event-driven design patterns and distributed caching
- Implemented **Redis caching layer** for high-traffic endpoints, reducing database load by **65%** and improving response times by **50%**
- Developed responsive **React.js frontends** with Redux state management and TypeScript, integrating seamlessly with Spring Boot backend APIs
- Automated **CI/CD pipelines** using Docker, Jenkins, GitHub Actions, and AWS, cutting deployment time from 2 hours to 15 minutes (**87% reduction**) with zero-downtime releases
- Secured applications using **Spring Security** with JWT, OAuth2, and RBAC following OWASP standards
- Achieved **95% code coverage** with JUnit 5/Mockito; reduced production bugs by **70%** and increased deployment frequency from weekly to daily

Java Developer Intern | Cognizant Technology Solutions | Remote Feb 2022 – Sept 2022

- Built **5+ full-stack web applications** using Java, Spring Boot, PostgreSQL, and JavaScript with CRUD operations, responsive UI, and optimized backend services

Education

Noida Institute of Engineering and Technology | B.Tech, Computer Science and Engineering | CGPA: **8.4/10** Aug 2018 – Aug 2022

Certifications

AWS Certified Developer – Associate | Amazon Web Services | [Verify](#) Sept 2024 – Sept 2027

AWS Certified Cloud Practitioner | Amazon Web Services | [Verify](#) May 2023 – May 2027

GitHub Foundations Certification | GitHub | [Verify](#) May 2025 – Mar 2028
