Professional Summary

Senior Full-Stack Java Developer with 4+ years of experience delivering enterprise-grade applications using **Java, Spring Boot, React, and PostgreSQL**. Proven track record in microservices architecture, RESTful API design, Redis caching, and AWS cloud services. Achieved **27% faster API response times**. AWS Certified Developer with strong expertise in both backend and modern React-based frontend development.

Technical Skills

Languages: Java 8/11/17, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, RESTful APIs, Microservices, JWT, GraphQL

Frontend: React.js, Redux, React Hooks, Context API, React Router, Responsive Design, REST API Integration

Databases: PostgreSQL, Redis, JDBC, Query Optimization, Connection Pooling

Cloud & DevOps: AWS (EC2, S3, RDS, Lambda), Docker, GitHub Actions, CI/CD

Testing: JUnit 5, Mockito, Spring Boot Test, Postman

Tools & Practices: Git, Maven, Gradle, Jira, SonarQube, Swagger, Agile/Scrum

AI Tools: GitHub Copilot, Prompt Engineering, Claude Code, Codex

Experience

Senior Java Fullstack Developer | CGM ARIA Health Services(MDEVERYWHERE INDIA PRIVATE LIMITED)| Full-time Jul 2026 – Present

- Working as a **Senior Full Stack Java Developer**, contributing to the development and enhancement of a **Healthcare Laboratory Information System (LIS)** application.
- Designed and developed a **dynamic reporting feature** using **JasperReports**, generating customized reports based on case type, case prefixes, and dynamic content requirements.

Java Full Stack Developer | Cognizant Technology Solutions | Noida, India Sept 2022 – Jun 2026

- Built and maintained 2+ production-grade full-stack applications using Spring Boot, React.js, PostgreSQL, and TypeScript, ensuring high availability and system stability through efficient error handling and monitoring
- Engineered **25+ RESTful APIs** with Spring Boot/Spring MVC including authentication, validation, and error handling, achieved **27% improvement in response times** via PostgreSQL query optimization and Redis caching
- Developed responsive **React.js frontends** with Redux state management and TypeScript, integrating seamlessly with Spring Boot backend APIs
- Improved **CI/CD pipelines** using Docker, GitHub Actions, and AWS, to reduce build feedback time and increase deployment frequency, supporting reliable zero-downtime releases on AWS
- Secured applications using **Spring Security** with JWT, OAuth2, and RBAC following OWASP standards
- Achieved **95% code coverage** with JUnit 5/Mockito; reduced production bugs by **70%**
- Reduced development turnaround time by approx. **40%** by leveraging AI-assisted coding, debugging, and documentation workflows, accelerating feature delivery.
- Participated in **Agile ceremonies** (sprint planning, retrospectives, code reviews) within cross-functional squads; mentored 2 junior developers on Spring Boot best practices, design patterns, and clean code principles

Education

Noida Institute of Engineering and Technology | B.Tech, Computer Science and Engineering | CGPA: 8.19/10 Aug 2018 – Aug 2022

Certifications

AWS Certified Developer – Associate | Amazon Web Services | [Verify](#) Sept 2024 – Sept 2027

AWS Certified Cloud Practitioner | Amazon Web Services | [Verify](#) May 2023 – May 2027

GitHub Foundations Certification | GitHub | [Verify](#) May 2025 – Mar 2028
